**THURSDAY 10<sup>TH</sup> OCTOBER 2024**

**ITEM NO. 69**

**R108 AND R125 REALIGNMENT FEASIBILITY - AI098248**

**Motion: Councillor D. Mulligan**

“That the Chief Executive investigate the feasibility of land acquisition required to realign the R108 and R125 junction on Rathbeale Road in order to improve visibility at this junction.

**Report:**

The realignment of the R108 and the R125 staggered junction is not a project currently on the Capital works program nor under consideration by the Planning and Strategic infrastructure Department.

Land acquisition would be required to significantly improve sightlines in the current junction arrangement, and if not obtained through agreement would require a CPO application to ABP.

The Operations Department is also not considering the carrying out of any works at the location. No complaints of issues with sightlines or other issues at the junction have been received by the Operations Department. This would be a significant road realignment project and would require substantial funding for full design, planning and construction. Given the planning and land acquisition/CPO requirements this is not something that could be delivered under the Operations Department Programme of Works.
